

CONSTRUCT DIRECT

CONSTRUCT DIRECT

A Digital Marketplace for Buying, Renting,
and Reselling Construction Equipment

CONSTRUCT DIRECT

CONSTRUCT DIRECT

WHY Construct Direct

Construct Direct exists to remove friction, waste, and uncertainty from how construction & industrial services companies' access, deploy, and monetise equipment.

Construction is one of the world's most capital-intensive and fragmented industries, yet it still relies on manual sourcing, opaque pricing, idle assets, and disconnected suppliers. Capital sits unused in yards, projects lose time due to procurement delays, and SMEs struggle to compete with scale players, not because they lack capability, but because the system is inefficient.

We believe:

- | Projects shouldn't be delayed by procurement
- | Capital shouldn't sit idle in yards
- | Contractors should have choice, transparency, and confidence

**Construct Direct exists to make
access to construction equipment
Simple, Fast, and Reliable.**

The Why

HOW We Create Value

We Turn Procurement from a Bottleneck into a **Competitive Advantage**. Instead of Calling 10 Suppliers, Customers Come to **One Trusted Platform**. 

01

By putting **Buying, Renting, and Used Sales** in one place

02

Connecting **Customers to Verified Suppliers and Asset owners**

03

Offering **Transparent options** so Customers choose what fits their project

04

Reducing **Procurement Admin, Negotiation cycles, and Uncertainty**

05

Helping **Customers Optimise Cost Without Compromising Compliance**

The How

WHAT Customers Get

01

Buy Scaffolding,
Formwork, Safety
Netting, and Access
Systems

**02**

Rent Equipment for
Short- or Long-Term
Projects

**03**

Purchase used
Equipment with
Confidence

**04**

Sell Surplus Assets
and Generate Cash

**05**

Save Time, Reduce
Cost, and Improve
Project Execution

The What

OUR Services

Construct Direct

Buy What Your Project Demands.

Construct Direct gives you access to a **comprehensive range of brand-new construction and scaffolding equipment.**

Sourced from verified suppliers, listed transparently, and available to procure without the friction of traditional supply chains.

More

**Short-term need or
long-term project,
Rent what you need,
when you need it.**

Not every project justifies the cost of ownership.

**Construct Direct's rental offering
gives construction businesses
flexible, cost-efficient access to the
same high-quality equipment range.**

Plus Services

↪ Buyers have access to :

↪ Pre-owned Scaffolding

↪ Heavy Machinery

↪ Safety Gear

↪ Industrial Equipment

More

↪ Sellers can :

↪ List idle or Surplus Equipment

↪ Convert Underutilised Assets

Quality Equipment. Proven in the Field.

Used doesn't mean unreliable.

At Construct Direct, pre-owned equipment is listed by **verified sellers**, giving buyers access to quality construction assets.

[Purchase](#)[Rental](#)[Used Sales](#)[Plus Services](#)

Beyond Equipment. Built for **Better Outcomes.**

Services is where Construct Direct goes **beyond the transaction.**

Because great construction outcomes aren't just about having the right equipment, they're about having the **right expertise, the right people, and the right support** at every stage of a project.

[↪ Fireproofing](#)[↪ Skilled Workforce](#)[↪ Insulation](#)[↪ Waterproofing](#)[More Plus Services Below](#)

[Purchase](#)[Rental](#)[Used Sales](#)[Plus Services](#)

Scaffolding **Services**

Our **Scaffolding support services** deliver **comprehensive, end-to-end solutions** for the erection, modification, and dismantling of industrial scaffolding structures.

These services are designed to **support maintenance operations, plant shutdowns, and construction projects** while ensuring efficiency, safety, and compliance with industry standards.

Our services include:

- Expertly Trained Scaffolders
- Thorough Inspection and Safety Compliance Services
- Specialized Scaffolding Support for Plant Shutdowns

Fabrication

We provide steel fabrication services delivering high quality solutions for industrial and construction applications. Our fabrication process **involves the transformation of raw metal materials such as sheets, plates, rods, and tubes into finished components, structures, and assemblies** tailored to specific project requirements.

Our services include **precision cutting, bending, welding, and assembly**, carried out using specialized equipment and skilled workmanship to ensure accuracy, durability, and compliance with design specifications across various industries.

Skilled **Workforce**

Construct Direct provides a highly trained skilled workforce across a range of industries, including construction, insulation, fireproofing, and waterproofing. The company delivers personnel aligned with each client's operational requirements, ensuring efficient execution and dependable results.

With strong industry experience, Construct Direct emphasizes careful workforce selection and consistent service standards. Its approach ensures reliable deployment, competitive pricing, and timely availability to support project success.

- Workforce solutions tailored to specific industries and project demands
- Experienced team ensuring consistent performance and quality
- Dependable delivery with competitive rates and on-time staffing

Quality, Health, Safety & Environment (QHSE)

We are committed to delivering **high-quality services while maintaining the highest standards of health, safety, and environmental responsibility**. Our operations are aligned with internationally recognized standards to ensure consistent performance.

Our management systems comply with:

- ISO 9001:2015 – Quality Management System
- ISO 14001:2015 – Environmental Management System
- ISO 45001:2018 – Occupational Health and Safety Management System

[Purchase](#)[Rental](#)[Used Sales](#)[Plus Services](#)

Insulation & Cladding

We provide expert support in installation of industrial insulation systems **designed to enhance energy efficiency, safeguard critical equipment, and ensure safe, reliable operations.**

Our services are delivered in **accordance with industry standards** and are tailored to meet the specific requirements of each project.

Scope includes:

- Hot and Cold Insulation Systems
- Aluminium and Stainless-Steel Cladding
- Acoustic Insulation

Waterproofing Services

Comprehensive waterproofing solutions for industrial and commercial structures.

Our services are **designed to protect assets from water ingress, enhance structural durability,** and ensure long-term performance under demanding conditions.

Our services include:

- Roof Waterproofing Systems
- Basement Waterproofing
- Industrial Tank Waterproofing
- Application of Protective Coatings
- Admixture for waterproofing of concrete

Fireproofing Services

Protecting What Matters Most

At Construct Direct, protecting what matter provides specialist passive fire protection services to clients operating across the industrial sector. **Our fireproofing solutions are designed to safeguard structural integrity, protect personnel, and ensure full regulatory compliance** delivered by experienced professionals with a proven track record in demanding operational environments. All works are executed in strict accordance with **applicable project specifications, client requirements, and international fire protection standards.**

Intumescent Paint Systems

Intumescent coatings provide a **technically advanced and aesthetically unobtrusive method** of fire protection for structural steelwork. Upon exposure to elevated temperatures, the coating expands to form a protective insulating char layer, significantly reducing the rate of heat transfer to the underlying steel. **Construct Direct applies both water- based and solvent-based intumescent systems, calibrated to the required fire resistance rating and exposure conditions of each project.**

Cementitious fireproofing systems

Cementitious fireproofing materials are **applied as a spray or trowel- applied coating to structural members, vessels, and equipment** in environments where **high-impact durability and long-term resilience are essential.** Particularly suited to petrochemical, oil and gas, and heavy industrial facilities, cementitious systems offer superior resistance to mechanical damage, hydrocarbon fire exposure, and extreme ambient conditions. **Construct Direct applies these systems in strict accordance with project specifications and applicable international standards.**

Our Services

Industries **We Support**

Construct Direct delivers specialized services across a wide range of industries, supporting complex projects with reliable solutions and skilled expertise.

Our experience enables us to meet the diverse requirements of both industrial and infrastructure sectors.

Oil and Gas

Petrochemical Plants

Refineries

Industrial Manufacturing

Infrastructure Projects

EPC Contractors

Our Services

Construct Direct helps you get the Right Equipment, at the Right Time, in the **Smartest Way** Buy, Rent, or Buy-Used.
